

KLING 4.0 — GITHUB PAGES EDITION

Brand Reference Guide

Official Resources, Platform Links & Getting Started

A comprehensive brand and resource reference for Kling 4.0 — the AI video generator for cinematic text-to-video and image-to-video workflows.

Official site: <https://www.kling-4.com/> | **Version:** 0.1 | **Updated:** May 2026

Brand Overview

Kling 4.0 is an AI video generator that produces cinematic-quality videos from text prompts and reference images. The platform is designed for creators, marketers, and professionals who need high-quality video content without traditional production workflows.

Text-to-Video

Generate cinematic video from descriptive text. Control style, mood, quality, and aspect ratio to match your creative vision.

Image-to-Video

Upload reference images and transform them into cinematic motion sequences with AI-powered animation capabilities.
